DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of species of Fig. 2 in Paper No. 10 is acknowledged.
2. Claims 4-8 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 10.

Priority

3. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

4. The information disclosure statement filed May 14, 2002 (Paper No. 4) fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.
5. The information disclosure statement (IDS) submitted on November 25, 2002 (Paper No. 7) is considered by the examiner.

Drawings

6. The drawings (Figs. 1(a)-1(b), Figs. 2-6, Figs. 8-10) are objected to because reference numbers 11, 12, 13, 15, 16, 20, and 27 in Figs. 1(a), 1(b), Figs. 2-6, and Figs. 8-10, respectively, are all associated with an empty "black box" which should have a

corresponding label. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

7. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

8. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections - 35 USC § 112

9. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

10. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the term "may" (line 7, counted by hand) renders the claim indefinite. Furthermore, it is not clear whether "a signal outputted from said memory" (lines 8 and 14), and "a signal outputted from said comparator" (lines 14-15, counted by hand) different from or the same as "an output signal from said memory" (lines 5-6, counted by hand), and "an output signal from said comparator" (lines 4-5, counted by hand) recited previously.

Claims 2-3 are rejected since they depend on rejected base claim.

Allowable Subject Matter

11. Claims 1-3 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Conclusion

12. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:
